Title: System give negative message when deposit amount is negative

Environment: [XYZ BANK](#) , Google Chrome, Firefox.

Steps to reproduce :

1. Navigate to Customer Login page
2. Select a valid customer
3. Click on "Login"
4. Click on the "Deposit" tab
5. Enter a negative amount in the amount field
6. Click on "Deposit" button

Expected Result: System should reject input and an error message displayed

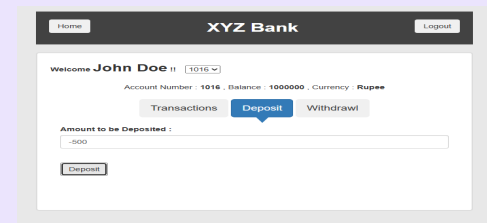

Actual Result: System should not navigate anything and nothing message is displayed

Test Data:

Customer Name: John Doe
Deposit Amount: -500

Status: Open

Screenshots:

The screenshot shows the XYZ Bank customer interface. At the top, there are 'Home' and 'Logout' buttons. Below the header, it says 'Welcome John Doe' with a dropdown menu showing '1016'. The account details are: 'Account Number : 1016 , Balance : 1000000 , Currency : Rupee'. There are three tabs: 'Transactions', 'Deposit' (which is active), and 'Withdrawal'. Under the 'Deposit' tab, there is a label 'Amount to be Deposited :', a text input field containing '-500', and a 'Deposit' button.
